Export robot programs

Robot motions & programming - Robot Offline Programming · https://convergent-it.com/tutorial/robot-motions-and-programming/export-robot-programs/

Comming soon:

How to export the robot program

How to deal with the export parameters (linear motions vs. ptp, Object-frames, references), select the program style ("all in one" , "one-sub-program per action"). and so on.

Assign external axes

If the value of external axes shall be included in the exported programs, you have to assign the axes to the robot.
